The girl, with long brown hair, is wearing a yellow patterned top and is holding a large, bright yellow balloon. They are both smiling broadly, suggesting a joyful moment. The background is slightly blurred, showing what appears to be a fair or festival setting with colorful lights and structures.

In the event of death, the life insurance payout, called a death benefit, provides your beneficiaries an amount that is generally tax-free.⁵

As a participating life insurance product, Advantage Plus has the potential to pay dividends. Foresters has consistently paid dividends for over 60 years.

Five distinct options to apply your declared dividends, such as these two options to boost the amount of protection on has:

- **Enhanced Insurance Option**, in which premiums are generally lower as coverage starts with a combination of permanent insurance and one-year term insurance. Dividends are used to pay for the one-year term insurance and any excess is used to buy paid-up additional insurance.
- **Paid-Up Additional Insurance Option**, which means buying additional permanent life insurance for the potential future growth of your coverage.
